

# TAMS

IS MAKING A DIFFERENCE!

We have a better idea of what we're managing using TAMS with easy access to information!

The screenshot shows the 'Signal and ITS Manager' software interface. The top part displays a table with columns for 'Asset Name', 'Main ID', 'Type', 'Location (City)', 'Comments', 'State Project Number', 'Structure Class Code', 'Asset Status', 'External Asset ID', and 'Alias'. Below the table is a map view showing a network of roads with various colored markers (red, blue, green) representing different asset types or statuses.
